A Better Way to Learn at Work

更适合职场的学习方式

This short guide accompanies the LMS demonstration course. It shows how a learner can combine a brief video, a readable reference, and a small reflection task in one focused learning experience.

本讲义配合 LMS 示例课程使用，展示如何把短视频、可在线阅读的参考资料和简短反思任务组合成一次专注的学习体验。

1. Learn

Watch the short introduction and identify one idea that connects with your current work.

观看短片，并找出一个与你当前工作相关的观点。

2. Practice

Apply the idea to a real situation. Keep the action small enough to try this week.

把观点应用到真实情境中，并选择一个本周就能尝试的小行动。

3. Reflect

Write what changed, what was difficult, and what support would help you continue.

记录发生了什么变化、遇到什么困难，以及继续行动需要什么支持。

4. Share

Discuss the result with a peer or manager so the learning becomes part of everyday work.

与同事或管理者讨论结果，让学习真正进入日常工作。

A Five-Minute Learning Loop

五分钟学习循环

Use this sequence whenever you want a course idea to become a practical habit.

当你希望把课程观点转化为实际习惯时，可以使用下面的步骤。

01	**Notice**	What is happening now? Describe facts before judging them.	先描述正在发生的事实，不急于判断。
02	**Choose**	Pick one behavior you can change or test.	选择一个可以改变或尝试的行为。
03	**Try**	Run a small experiment in a real work situation.	在真实工作情境中进行一次小实验。
04	**Review**	Compare what you expected with what actually happened.	比较你的预期与实际发生的结果。
05	**Continue**	Keep, adjust, or stop the behavior based on evidence.	根据证据决定保持、调整或停止。

Reflection prompt

What is one small action you will test in the next seven days, and what evidence will tell you whether it helped?

未来七天你会尝试哪一个小行动？你将用什么证据判断它是否有效？

Quick Reference

快速参考

A good digital learning resource is short enough to use, clear enough to trust, and practical enough to change behavior.

好的数字学习资源应当简短到容易使用、清晰到值得信赖、实用到能够促成行为改变。

Purpose

Can the learner explain why this matters?

学习者能否说明这件事为什么重要？

Clarity

Are the next actions specific and observable?

下一步行动是否具体且可以观察？

Practice

Is there a safe way to try the idea at work?

是否能在工作中安全地尝试这一观点？

Feedback

Will someone or something show whether it worked?

是否有人或数据能说明行动是否有效？

Reflection

Is there time to review and adjust?

是否留出了复盘和调整的时间？

This is demonstration material created for Unfolding Learning Lab. Replace it with your own policies, examples, and learning objectives before using the course for formal training.
